

Biology Graduate Program Annual Development Plan

Name of Student: Year Evaluated:

Years in Program: Supported By:

Utah Resident Non-Resident

Review your accomplishments (expand space as necessary)

Courses taken this year:

Department	Course Title/Number	Hours	Grade

Courses planned for next year:

Department	Course Title/Number	Hours	Grade

Describe research undertaken this year:

List presentations given this year (TGIF, FUSION, posters, meeting talks, etc.):

Publications this year (manuscripts and abstracts). Give authors (surname and initials), title, journal name, volume, and inclusive page numbers). If submitted, indicate so.

Describe how your form of support (TA, RA, Fellowship, etc.) contributed to your training and development:

Date of Supervisory Committee Meeting:

Committee members present:

Committee members absent:

Student Self-Evaluation

In an attempt to better advise students, the Biology Graduate Program Committee (BGPC) would like each student to complete the following questions that ask you to do some self-evaluation of your professional goals. Expand spaces as necessary

1. At the present time, what is your career goal(s)?

2. What strengths do you see yourself having at the present time that provides a good fit with your career plans?

3. What areas do you think you need to develop so that your skills better match your career goals?

4. What are your plans to develop those skills/areas?

5. In what ways can the BGPC/Department/Advisor/Mentor help you develop these areas and move toward your career goal(s) in the next 12 months?

Evaluation by research advisor / mentor

1. Use and familiarity of literature pertaining to project:
2. Design and execution of experimental work:
3. Relative use of time towards thesis research versus other activities:
4. Evaluation of research data:
5. Record keeping:
6. Independence and motivation:
7. Overall Progress/Other Comments:
