University of Utah, Biology Department Research Interests

To help direct your application to the appropriate faculty for review, please fill out this research interest form and upload a copy into your ApplyYourself application.

Please check one of these two boxes.
- I am specifically interested in joining only the one or two labs checked below.
- I am interested in multiple labs (specific labs or general areas checked below).

Check below if it applies to you.
- I might be interested in spending my first year carrying out lab rotations.

Note that most faculty are listed under more than one category. Please do not check all categories – Check only those relevant to your research interests.

Behavior
- This research area
  - Frederick Adler
  - Sophie Caron
  - Dean Castillo
  - M. Denise Dearing
  - Donald Feener
  - Franz Goller
  - Wayne Potts
  - Gary Rose
  - Neil Vickers
  - Michael Werner
  - Ayako Yamaguchi

Biochemistry and Structural Biology
- This research area
  - David Blair
  - David Goldenberg
  - Julie Hollien
  - Kelly Hughes
  - Martin Horvath
  - Baldomero Olivera
  - John S. Parkinson
  - Michael Werner

Cell Biology
- This research area
  - Markus Babst
  - Mary Beckerle
  - Sophie Caron
  - Julie Hollien
  - Erik Jorgensen
  - Nitin Phadnis
  - Ofer Rog
  - Saveez Saffarian
  - Leslie Sieburth
  - Michael Vershinin
  - Michael Werner

Developmental Biology
- This research area
  - Michael Bastiani
  - Sophie Caron
  - Gary Drews
  - James Gagnon
  - Nitin Phadnis
  - Ofer Rog
  - Michael Shapiro
  - Leslie Sieburth
  - Michael Werner

Ecology and Environmental Biology
- This research area
  - Frederick Adler
  - William (Bill) Anderegg
  - Sarah Bush
  - William Brazelton
  - Dale Clayton
  - Phyllis Coley
  - M. Denise Dearing
  - Bryn Dentinger
  - James Ehleringer
  - Donald Feener
  - John (Jack) Longino
  - Nalini Nadkarni
  - Diane Pataki
  - Cagan Sekercioglu
  - Michael Werner

Ecosystem Science
- This research area
  - William (Bill) Anderegg
  - Dave Bowling
  - James Ehleringer
  - John (Jack) Longino
  - Nalini Nadkarni
  - Diane Pataki
  - Cagan Sekercioglu
Evolutionary Biology
- This research area
  - Frederick Adler
  - Lynn Bohs
  - William Brazelton
  - Sarah Bush
  - David Carrier
  - Dean Castillo
  - Richard Clark
  - Dale Clayton
  - Bryn Dentinger
  - Colleen Farmer
  - Donald Feener
  - Franz Goller
  - John (Jack) Longino
  - Nalini Nadkarni
  - Nitin Phadnis
  - Wayne Potts
  - Jon Seger
  - Michael Shapiro
  - Michael Werner

Genetics
- This research area
  - Frederick Adler
  - Sophie Caron
  - Dean Castillo
  - Richard Clark
  - James Gagnon
  - Kent Golic
  - Julie Hollien
  - Kelly Hughes
  - Erik Jorgensen
  - Ofer Rog
  - Wayne Potts
  - Nitin Phadnis
  - Jon Seger
  - Leslie Sieburth
  - Michael Shapiro
  - Michael Werner

Genomics
- This research area
  - William Brazelton
  - Dean Castillo
  - Richard Clark
  - Colin Dale
  - Bryn Dentinger
  - James Gagnon
  - Nitin Phadnis
  - Michael Shapiro
  - Leslie Sieburth
  - Michael Werner

Microbial Biology
- This research area
  - David Blair
  - William Brazelton
  - Colin Dale
  - Bryn Dentinger
  - Kelly Hughes
  - John S. Parkinson

Neurobiology
- This research area
  - Michael Bastiani
  - Sophie Caron
  - Franz Goller
  - Erik Jorgensen
  - Michael McIntosh
  - Gary Rose
  - Neil Vickers
  - Ayako Yamaguchi

Physiology and Functional Morphology
- This research area
  - William (Bill) Anderegg
  - Sophie Caron
  - David Carrier
  - Colleen Farmer
  - Don Feener
  - Franz Goller
  - Kelly Hughes
  - Gary Rose
  - Michael Werner
  - Ayako Yamaguchi

Plant Biology
- This research area
  - William (Bill) Anderegg
  - Lynn Bohs
  - Richard Clark
  - Phyllis Coley
  - Nalini Nadkarni
  - Diane Pataki
  - Leslie Sieburth
