

## A Year of ACCESS

---

### SUMMER

#### Before your first Fall semester at the U

**Live...** on campus (freshmen)

**Learn...** about global scientific issues in an ACCESS exclusive course

**Engage...** with scientists and engineers and build a strong cohort of support

### FALL & SPRING

#### Your first year at the U

**Acquire...** skills for academic and career success

**Research...** with mentorship from an elite STEM professor

**Share...** your research in an end of year symposium

---

## APPLY

Application for the 2022-2023 academic year will go live December 2021.

# ACCESS Program

## Supporting Women in Science & Math

---

ACCESS welcomes all students who are inspired by science and committed to advancing gender equality in STEM. The scholarship, valued at over \$5000, includes a monetary award and covers all costs associated with the ACCESS first year experience.

ACCESS provides freshmen and transfer students from a variety of backgrounds with a supportive path into STEM degrees, and later careers.

A year with ACCESS informs academic and career goals at the earliest possible stage, builds social awareness, unites a group of like-minded peers, and connects first year STEM students to a network of over 800 program alumni.

ACCESS is a signature program of the University of Utah College of Science. Through partnerships with the College of Mines and Earth Sciences, the College of Engineering, and Medical Laboratory Sciences, ACCESS welcomes and supports students majoring in all STEM disciplines.
